customers**

# MODERN TECHNOLOGIES IN FORMULATIONS

## NANOTECHNOLOGY

**Nano Curcumin**

**Nano Emulsion**

**Bioperine**

### Advantages of Liposomal Technology

- Targeted Delivery
- Prolonged Drug Release
- Enhanced Absorption and Bioavailability
- Used to encapsulate dietary supplements

**Nanoformulations unique properties and advantages.**

- Enhanced Solubility and Bioavailability
- Targeted Delivery
- Stability and Protection
- Reduced Toxicity

## LIPOSOMAL TECHNOLOGY

**Liposomal Iron**

**Liposomal Calcium**

**Liposomal Glutathione**

## Enteric coated Softgels

- Enhanced Stability in the acidic stomach
- Prevents Gastric irritation
- Targeted delivery & Reduced Toxicity
- Improves Tolerance
- Enhance Taste and improves compliance

No more smelly or fishy burps

## Mouth Melting Granules

- Reduces GI disturbance
- Quick Absorption
- Consumer & Travel friendly
- Customized flavors & good compliance

Available in Delicious Flavour

## Chewable Softgel

- Effective in Sustained localized action
- Easy to take at any situation
- Good mouthfeel and experience
- Available in different flavors

Mint flavoured chewable Softgel

# Our Nutra & Herbal Product Portfolio
